

About Us

MiliTech Solutions, a vision of two passionate young individuals desiring to aid our nation's resilience, with the vision to create something truly remarkable.

From passion for ethical defence, secure development practices, and impactful user awareness. To reality in form of "Phish Net".

- ◆ Cybersecurity
- ◆ Phishing Simulations
- ◆ Governance & Regulations

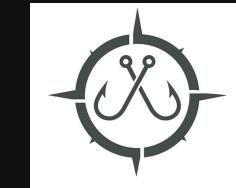

The Product

Phishing remains one of the most pervasive and dangerous cyber threats—deceiving users, compromising data, & undermining organizational stature.

"Phish Net" rises to this challenge as a cutting-edge phishing simulation toolkit built to educate, test, and empower users through hands-on experience.

Crafted with modular design, intuitive interfaces, and a strong focus on security, scalability, and customization, "Phish Net" enables organizations to deploy realistic phishing campaigns, track user interactions, and gain deep insights through robust analytics.

Phish Net

The Phishing Simulation Toolkit

A Bespoke solution for all your resilient needs

Methodology ↗

- Agile Development
- Bi - Weekly Sprints Meetings
- Roles based on expertise & experience
- Daily Jira & Google Uploads for backup and modularity
- GitHub ensuring a synchronized workflow

Key Highlights ↗

Our advantages are:

Customizable campaigns to simulate real-world phishing attacks and scenarios.

Monitor email opens, link clicks, data submissions to evaluate phishing resilience.

Built with modular components to support multiple organizations.

Comments

“Your vision is quite high for there hasn't been a single solution of such kind in Pakistan. It's an cutting edge idea, with an epic solution. Though a tough challenge to say the least!”

Col. Wasif Sandhu
Managing Director
Inter Services Intelligence (ISI)

Our Product ↗

Bespoke and modular phishing solution and cyber awareness toolkit for the country's local threat landscape.

↗ Agenda

- Providing cyber relevant and innovative technology solution.
- Providing tailor made test ranges, simulation service, education platform and evaluation metrics all in a single housing.
- Ensuring the security and protection of customer data.
